

CostSmart's Services:

Uniforms + Workwear

CostSmart recognises the frustration felt by managers to source uniforms and workwear. We aim to centralise the process for your business.

Our flexible **eStore solution** allows your company to streamline your apparel and ordering systems. We house your uniforms and workwear within a customised eStore, which will enable you to order products as needed and view available inventory.

With our individual pre-pack service, you can receive individually packed staff parcels that are perfect to welcome new employees or special events.

Some of the challenges CostSmart can manage for you are:

- **Sourcing** the uniforms
- Purchasing from an array of suppliers
- Finding the right sizing
- Returning and re-ordering wrong sizes
- Amending purchase orders and invoices
- Finding **storage**
- Distributing the items

“CostSmart has been providing customised uniforms to our staff nationally for over 4 years. CostSmart importantly have been able to meet our needs as our company continues to grow and expand...Fantastic service, quality and price!”

- CFO - Green Options

Head to our website to learn more about how your business can benefit from CostSmart sourcing and managing your **Uniforms + Workwear**.

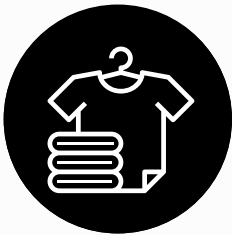

Save time and cut costs in procurement and administration by centralising your apparel ordering systems.

CostSmart can assist you with anything from style guides and design concepts, to a **customised total apparel management system**.

CostSmart offers a **pre-pack service** and new member/employee packs.

A customisable eStore allows for stock monitoring with trigger levels to ensure uniforms and workwear are always available.
